

High flow spray head

Introduction

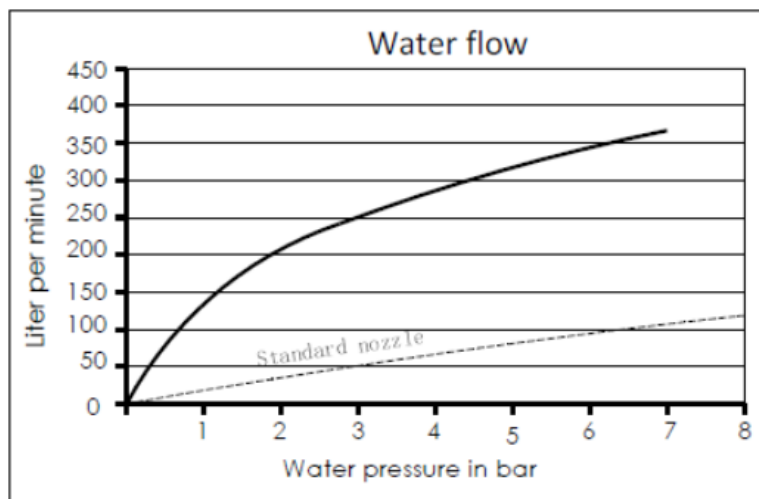

The high flow spray head is a professional cleaning gun, which is ideal for cleaning large surfaces/objects in a short time. With the rotatable head you can accurately set the spray angle and then spray without effort.

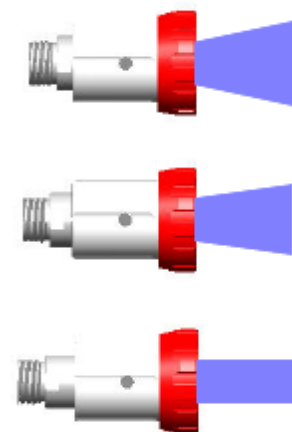

Product reference: AKRSHHH1-WR

Specifications

Characteristic	AKRSHHH1-WR
Weight	726 gram
Dimensions (L x D)	120 x 79 mm
Materials	Stainless steel (AISI 304), POM and EPDM
Material of screw	Stainless steel (AISI 304)
Maximum pressure	7 bar
Maximum temperature	40 °C
Connection	1" BSPP male, 60° conical seal
