

Hose reel 889

Medium sized open stainless steel hose reel

Fitted with slightly larger drums and are therefore able to take a little longer hose than Series 888. These reels are ideal in environments with high humidity, where hygiene is of the utmost importance or where there is a risk of chemical attack. Thanks to the open design, the reels are very easy to service, maintain and keep clean. Can be installed on wall or on the ceiling.

- All components in stainless steel and chemically resistant composite.
- Open design for ease of cleaning
- Outlet position can be adjusted through 120° for optimum pull-out and pull-in angle.

AKBO889
