

Blue Princess

Economic high-quality cleaning gun

Powerful cleaning with less water

The Blue Princess is a cost-saving cleaning gun with many special features.

With its light weight and compact dimensions, it is very pleasant to handle. The velvety rubber surface contributes to this.

The nozzle has the new revolutionary flat AKBO design, which ensures a perfect spray pattern without dripping. Because of the precisely positioned nozzle tip, there is a very even spray pattern. With the trigger, the shape of the jet can thereby be easily and quickly changed from a wide cone to a narrow point jet. Moreover, the passage is dimensioned in such a way that the gun consumes at least 26% less water than a regular cleaning gun while maintaining high cleaning power due to its strong jet.

Despite its low weight and compact dimensions, the Blue Princess is very durable, thanks to its robust construction, sturdy hinges, durable materials and double internal seals.
