

# Lightweight cleaning gun

## Now available with trigger guard

You may have already been introduced to the Lightweight cleaning gun. The AKNN001-B with its low weight makes it less tiring in long-term cleaning applications. This gun is suitable for all regular cleaning duties.

AKBO has designed a new version of the AKNN001-B. The lightweight model is now available with trigger guard that prevents unintended use of the trigger and provides protection to the cleaning gun when dropped on the floor. The trigger guard is made of sturdy stainless steel and has an EPDM coating. The lightweight version with trigger guard is now available (art.no. **AKNNP01-B**).

- Strong body of fibreglass-reinforced plastic (PA66)
- Rubber jacket with good resistance to animal fats (incl. chicken fat)
- Double internal seals (EPDM and Viton) for extra security
- Stainless steel trigger, spring and nozzle shaft
- Clear red arrow for jet direction on rubber cover
- Maximum pressure 12 bar
- Maximum temperature 50 °C
- Connection: 1/2" BSP female thread
- Weight: 667g
- Water flow at 5 bar: 28 l/min
- Continuously adjustable spray pattern via trigger

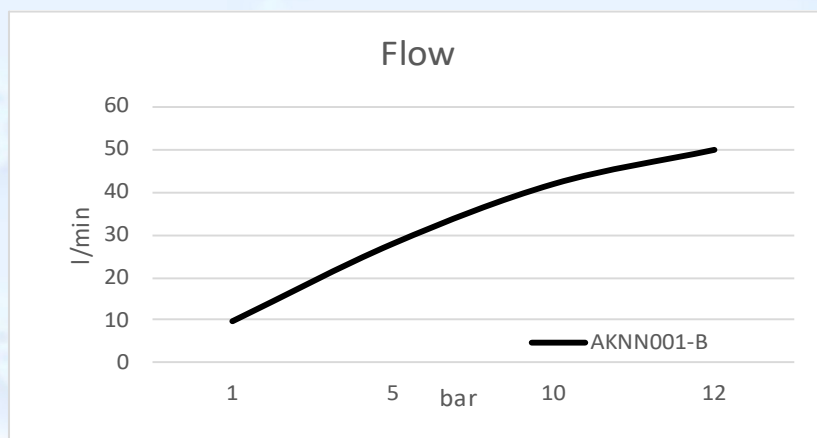

**NEW**

**Well adjustable spray angle with excellent spray pattern.**

**The lightweight excels user comfort, less tiring in long-term cleaning applications and durability. Why settle for less?**

**Water flow of the AKNN-series in relation to the pressure**
